Traffic activity view	Date of when users book or offer a ride on the site
Realized view	Date of when trips actually occurs

Traffic activity view	New Users	New users on the given period
	New Drivers	New drivers on the given period
	New Passangers	New passangers on the given period
	Trips Offered	Number of new trips offered in the given date. Number of trips don't include stopovers. Eg: a trip from San Francisco to Los Angeles, stoping at Monterey and Santa Maria would count as 1 trip offered.
	Bookings	Number of bookings in the given period. Eg: a booking of 3 seats booked on 12/09/2014 to travel on 14/09/2014 would be counted as 1 booking on 12/09/2014
Realized view	Available Seat Kilometer (ASK)	Number of seats offered in the given period times the number of kilometers of each trip.
	Trips realized	Number of trips with at least one Tripda passenger in the given period, regardless the number of bookings in the car. Eg: a trip from Bogota to Manizales with 3 PAX and 3 different bookings would caount as 1 trip.
	PAX transported	Number os passengers transported in the given period
	Average PAX per trip realized	Average PAX per trip realized (PAX transported / Trips realized)
	Realized TRIP Yield	Percentage of outstanding trips offered that converted into a realized trip, having at least one PAX transported. Don't confuse with "Trips offered". Here we consider the date when the trip takes place. Eg: if in one day Malaysia had 100 trips outstanding and 12 trips realized, the "Realized trip yield" would be 12%.
	Average realized trip distance	Average distance traveled in the given period. The average is weighted by the number of passenger on each trip.
	Driver Cancelation rate	Percentage of PAX affected by driver cancellations for trips that would happen in that given period. If a Driver cancels a trip, in which no PAX has yet booked a seat, this won't count for this statistics. Eg: If there are 100 PAX travelig on Tripda in a given day and one driver cancels a ride with 4 seats booked, the cacelation rate would be 4%
	PAX Cancelation rate	Percentage of trips canceled by passengers that would actually become a real trip in the given period
